Description

An Introduction to Protein Sequencing Using Tandem Mass Spectrometry.

Table of Contents

The Primary Structure of Proteins and a Historical Overview of Protein Sequencing.

Author Information

Fundamental Mass Spectrometry.

Reviews

Collisionally Induced Dissociation of Protonated Peptide Ions and the Interpretation of Product Ion Spectra.

Basic Polyacrylamide Gel Electrophoresis.

The Preparation of Protein Digests for Mass Spectrometric Sequencing Experiments.

Mass Spectrometric Analysis of Tryptic Digests.

Protein Identification by Database Searching.

Sequence Analysis of Novel Proteins.

The Characterization of Post-Translationally Modified Proteins Using Tandem Mass Spectrometry.

Index.
