

ATHERO- SCLEROSIS III

F.G.

Proceedings of the
Third International Symposium

Edited by G. SCETTNER and A. WEIZEL

With 349 Figures and 222 Tables

Springer-Verlag
Berlin Heidelberg New York 1974

I. The Arterial Wall in the Pathogenesis of Atherosclerosis

<i>Workshop: The Composition of Early Lesions (Chairmen: E. B. Smith, S. Björkerud)</i>	1
The Lesion (H. C. McGill, Jr.)	27
Metabolism of the Arterial Wall (D. Kritchevsky, H. V. Kothari)	39
Biophysical Factors in Vascular Structure and Caliber (S. Rodbard)	46
Contraction of Endothelial Cells as a Key Mechanism in Atherogenesis and Treatment of Atherosclerosis with Endothelial Cell Relaxants (T. Shimamoto).	64

II. Lipoproteins and Proteins of the Arterial Wall

Uptake of Intact Plasma Lipoproteins into the Arterial Wall of the Rabbit (A. N. Klimov, T. N. Loviagina, A. V. Popov, E. B. Ban'kovskaya).	85
Beta-Lipoprotein Entry into the Arterial Wall and its Prevention (T. Shimamoto, F. Numano)	89
Identification of Lipoproteins Involved in Human Atherosclerosis (K. W. Walton)	93
Quantitative Interrelationships Between Plasma Constituents and Normal and Atherosclerotic Human Intimal Tissue (Elspeth B. Smith, Rosalind S. Slater, D. C. Crothers)	96

III. Lipids of the Arterial Wall

Lipid Metabolic Pool in Subcellular Fractions of Rabbit and Human Atherosclerotic Lesions (A. J. Day, A. K. Horsch, J. W. Proudlock)	103
Glucose and Lipid Metabolism in the Human Arteriosclerotic Aorta (I. Filipovic, K. von Figura, E. Buddecke)	107
Cholesterol Transfer in Vitro Between the Rabbit Aorta and Serum Lipoproteins (G. Bondjers, S. Björkerud)	110
Arterial Lipid Metabolism in Diabetic Animal Models with Reduced or Elevated Plasma Insulin Levels (A. V. Chobanian, G. C. Gerritsen, L. McCombs, P. I. Brecher)	114
Lipid Metabolism in Perfused Human Coronary Arteries and Saphenous Veins (H. Tillmanns, I. S. M. Sarma, K. Seeler, R. I. Bing)	118

IV. Enzymes of the Arterial Wall

<i>Workshop: Arterial Wall Enzymes (Chairmen: A. J. Day, J. Patelski)</i>	129
A Comparison of the Rates of Lipolysis and Lipogenesis in the Rat Aorta (C. H. Gilbert, D. J. Galton)	140
Properties and Positional Specificity of Lipases in the Human Aorta (A. Noma, H. Okabe, T. Sakurada, H. Orimo, M. Murakami)	143
The Influence of Atherosclerosis on Cholesterol Esterifying Activity of Rabbit and Monkey Aorta (P. I. Brecher, A. Tercyak, A. V. Chobanian)	146

Aortic Uptake of Chylomicron Triglyceride in Vivo and Aortic Lipoprotein Triglyceride Lipase in Rat (A. Vost, Dorothy M.-E. Pocock)	150
---	-----

V. Metabolic Functions of the Arterial Cell

<i>Workshop: Metabolism and Function of Arterial Cells in Culture</i> (Chairmen: A. L. Robertson, Jr., O. J. Pollak)	155
Cell Proliferation and Ultrastructural Changes in Regressing Atherosclerotic Lesions After Reduction of Serum Cholesterol (H. C. Stary)	187
Glucosamineglycans in Cell Membranes and the Extracellular Compartment of the Arterial Wall (J. Picard, P. Levy, B. Hermelin, M. Douillon-Breton, A. Groleas, E. Deudon)	191
Increased Mitotic Activity in Primary Cultures of Aortic Medial Smooth muscle Cells After Exposure to Hyperlipemic Serum (Katti Fischer-Dzoga, Rose M. Jones, Dragoslava Vesselinovitch, R. W. Wissler)	193
The Synthesis and Secretion of Sulfated Glycosaminoglycans by Vascular Smooth Muscle Cells In Vitro (T. Wight, R. Ross)	196
Etiology of Myointimal Cell Proliferation (C. Stout)	199

VI. Permeability of the Arterial Wall and Connective Tissue Reactions

<i>Workshop: Factors Affecting Permeability and Connective Tissue Reactions in Atherosclerosis</i> (Chairmen: M. D. Haust, L. Robert)	205
Association of Coronary Artery Endothelial Injury with Elevation of Serum Bile Acids in the Rat (F. Parl, W. H. Gutstein)	229
Effect of Nicotine on Severity of Acute Myocardial Ischemic Injury (A. Ilebekk, O. D. Mjøs)	233
Endothelial Permeability: Focal and Regional Patterns of ¹³¹ I-Albumin and ¹³¹ I-Fibrinogen Uptake and Transmural Distribution in the Pig Aorta (F. P. Bell, I. L. Adamson, A. S. Gallus, C. J. Schwartz)	235
Increased Collagen Synthesis in Early Rabbit Atherosclerosis and its Inhibition by Cis-Hydroxyproline (K. G. McCullagh, I. H. Page)	239
Basement Membranes in Muscle Capillaries of Patients with Hyperlipidemias (N. Zöllner, H. Herrlinger)	242
Effect of Adrenocortical Hormones on the Integrity of Rat Aortic Endothelium (S. Björkerud)	245

VII. Platelets-Thrombogenesis-Fibrinogen-Fibrinolysis

Thrombosis and Atherosclerosis (J. F. Mustard, M. A. Packham, S. Moore, R. L. Kinlough-Rathbone)	253
The Natural History of Experimentally Induced Mural Thrombi in Systemic Arteries of Normocholesterolaemic and Hypercholesterolaemic Monkeys (K. Prathap)	268
Behavior of Fibrinogen and Fibrinolysis in Type II and Type IV Hyperlipemic Subjects and in Patients with Coronary Heart Disease (A. Pagnan, W. Donadon, E. Tonolli, C. Dal Palù)	270
Control of Platelet Function in Postmyocardial Infarction Patients During a Two Year Aspirin Study (E. Walter, T. Pfeleiderer, Ellen Weber)	273

Dietary Fat, Platelet Function and Coronary Heart Disease in Man (G. Hornstra)	279
Enhanced Platelet Aggregation as a Risk Factor for Thromboembolic Complications in Atherosclerosis (H. J. Krzywanek, K. Breddin, I. Scharrer, J. Kutschera)	283

VIII. Animal Models of Atherosclerosis

<i>Workshop: Animal Models of Atherosclerosis</i> (Chairmen: Th. B. Clarkson, J. P. Strong)	289
Animal Models of Atherosclerosis and/or Myocardial Infarction (A. N. Howard)	308
Differences Between Human and Animal Atherosclerosis (R. W. Wissler, Dragoslava Vesselinovitch)	319
Experimental Atherosclerosis Due to Ascorbic Acid Deficiency (T. Fujinami, K. Okado)	326
On Pathogenetic Factors Concerned with Vascular Lesions Induced by High Sucrose Diet in Monkeys (M. Murakami, H. Sekimoto, I. Nakada, K. Nakamura, M. Takaori)	330
Ultrastructural Changes in the Coronary Arteries of Primates (<i>Macaca Iris</i>) after a Prolonged, Mild Carbon Monoxide Exposure (H. K. Thomsen)	333
Responses of Two Macaque Species to Atherogenic Diet and its Withdrawal (M. L. Armstrong, Majorie B. Megan)	336
Preliminary Results of Reversibility of Spontaneous and Diet-Induced Atherosclerosis in Squirrel Monkeys by Chondroitin-4-Sulfate (L. M. Morrison, B. H. Ershoff, G. S. Bajwa, O. A. Schjeide, Roslyn B. Alfin-Slater, N. L. Enrick)	339
Necrogenic Agent Obtained from Cholesterol Used in Dietary Experiments (K. T. Lee, H. Imai, N. T. Werthessen, C. B. Taylor)	344
Production of Advanced Atheromatous Lesions in an Allografted Segment of Aorta in a Normocholesterolaemic Rabbit (D. E. Bowyer, D. Dunn, G. A. Gresham)	348
Rat Homografts of Arterial Wall Fragments: A Contribution to the Understanding of Experimental Atherosclerosis (J. Larrue, J. J. Berjon, C. Desgranges, J. M. Meunier, H. Bricaud)	353
Morphologic and Histochemical Studies on Human and Minipig Arteries (H. Hess, M. Marshall, M. Mallasch)	358
Effect of Exercise on Collagen and Elastin in Aortas of Cockerels with Induced Atherosclerosis (H. Y. C. Wong, S. N. David, S. O. Orimilikwe)	362
The Role of Hypertension and Hyperlipemia in the Morphogenesis of Experimental Atherosclerosis (A. Trillo, S. Renaud, M. Daria Haust)	366

IX. Lipoprotein and Lipid Metabolism in Experimental Animals

<i>Workshop: Lipid Metabolism in Primates</i> (Chairmen: H. B. Lofland, O. W. Portman)	373
Uptake and Autoradiographic Localization of Very Low Density Lipoproteins in Rat Liver (O. Stein, D. Rachmilewitz, S. Eisenberg, L. Sanger-Gabay, Y. Stein)	396
Characterization of Experimental Type II Hyperlipoproteinaemia in Guinea Pigs (G. L. Mills, F. McTaggart)	398
Cholesteryl Ester Accumulation in Rat Hepatoma Tissue Culture Cells (G. Rothblat)	402
Effects of Dietary Protein on Plasma Cholesterol Levels in Rabbits Fed Cholesterol-Free Semisynthetic Diets (R. M. G. Hamilton, K. K. Carroll)	406

X. Hyperlipoproteinemia and Lipoprotein Disorders - Genetics and Epidemiology

<i>Workshop: Types and Genetics of Hyperlipoproteinemias</i> (Chairmen: W. Fuhrmann, W. Holmes)	413
---	-----

Genetics and Atherosclerosis (A. G. Motulsky, H. Boman)	438
Pediatric Aspects of Atherosclerosis (S. Blumenthal)	446
Heritability of Serum Lipids and Lipoproteins (A. Heiberg)	455
The Inheritance of Lipoprotein Disorders and the Risks of Coronary Death in First-Degree Relatives of 193 Survivors of Myocardial Infarction (D. Patterson, Joan Slack)	458
Hyperlipidemia in Survivors of Myocardial Infarction: Relationship Between Genetic Classification and Lipoprotein Phenotype (W. R. Hazzard, J. L. Goldstein, H. G. Schrott, A. G. Motulsky, E. L. Bierman)	464
Quantitative Genetic Studies of the Human Plasma Lp(a) Lipoprotein (J. J. Albers, W. R. Hazzard)	469
Coronary Artery Disease Risk in Familial Type II Hyperlipoproteinemia (N. J. Stone, R. I. Levy, D. S. Fredrickson, J. Verter)	473
Prospective Study of Cord Blood Cholesterol to Predict Level of Cholesterol and Type II Hyperlipoproteinemia in Adolescence (I. Krishan, C. G. Hames, H. A. Tyroler, Caroline Becker)	476
Detection of Familial Hyperlipoproteinemia by Cord Blood Analysis (E. A. Stein, D. Mendelsohn, I. Bersohn)	478
Pre-Beta ₁ -Lipoprotein: Relationship to Angiographically Proven Coronary Heart Disease and to Lp(a) Lipoprotein (K. Berg, G. Dahlen, C. Erikson, H. Frick, C. Furberg, M. Wiljasalo)	481
Prevalence and Distribution of Femoral Atheromas in Human Hyperlipoproteinemia, Type II and IV (D. H. Blankenhorn, R. Barndt, D. W. Crawford, R. H. Selzer, E. S. Beckenbach)	484
Primary Hyperlipoproteinemias and Other Risk Factors in Patients with Occlusive Arterial Disease of the Lower Limb (K. H. Vogelberg, H. Berger, F. A. Gries, Th. Koschinsky, W. Kübler, E. Schütz, Th. Stolze)	488
Atherosclerotic Lesions of the Cerebral Arteries in Young Persons (M. Suzuki)	492

XI. Plasma Lipids

Cholesterol and Triglyceride Metabolism

<i>Workshop: Cholesterol and Triglyceride Metabolism in Man</i> (Chairmen: R. J. Havel, E. Nikkilä)	499
Metabolic Studies in Hyperlipidaemia (P. J. Nestel)	502
Correlation of Kinetic Parameters of Cholesterol Metabolism with Serum Cholesterol Levels (K. Biss, K.-J. Ho, C. B. Taylor)	512
The Relationship of Esterification of Plasma Cholesterol to Hypertriglyceridemia (H. S. Sodhi, B. Kudchodkar)	516
Role of a Lipid Carrier Protein in the Control of Lipid Synthesis, Metabolism, and Transport (Mary E. Dempsey, K. E. McCoy, Thelma D. Calimbas, J. P. Carlson)	520

Fatty Acids

Impaired Fatty Acid Incorporation into Adipose Tissue (FIAT) in Hypertriglyceridemia. Effect of Intravenous Fat Infusion on FIAT (G. Walldius, L. A. Carlson, H. Lithell, A. G. Olsson, P. Rubba, B. Vessby)	524
Interrelationship of Plasma Free Fatty Acids and Blood Beta-Hydroxybutyrate Concentration in Coronary Artery Disease (P. Ghosh, C. N. Hales)	529

Bile Acids

Elimination of Cholesterol as Bile Acids in Hyperlipoproteinemias Type II and IV (K. Hellström, K. Einarsson, M. Kallner) 532

Bile Acid Kinetics in Hyperlipoproteinemia (B. A. Kottke, Connie L. Stamnes, Nancy E. Tyler, Mary A. Carey) 537

Miscellaneous

Influence of Dietary Cholesterol on Skin Lipid Synthesis in Man. Evidence for a Positive Feedback Mechanism (D. Mendelsohn, H. C. Seftel) 539

XII. Lipolytic Enzymes

Workshop: Lipolytic Enzymes (Chairmen: W. V. Brown, H. Greten) 543

Observation Implicating that Familial Type I Hyperlipoproteinemia Is Not a Post-Heparin-Lipase Deficient Condition (F. Damgaard-Pedersen, J. Dyerberg) 553

Separation and Characterization of Two Triglyceride Lipase Activities from Human Post-Heparin Plasma (Ch. Ehnholm, W. Shaw, H. Greten, W. Lengfelder, W. V. Brown) 557

Selective Measurement of Lipoprotein Lipase and Hepatic Lipase in Post-Heparin Plasma (R. M. Krauss, R. I. Levy, D. S. Fredrickson) 561

Effect of Unsaturated Phosphatidylcholine on the Lipoprotein Lipase Activity In Vitro (V. Blaton, H. Peeters) 565

Lipolytic Activities of Hepatic Plasma Membrane Origin in Post-Heparin Plasma (G. Assmann, R. M. Krauss, D. S. Fredrickson, R. I. Levy) 569

Assay of Activators for Serum Lipoprotein Lipase (P. Chu, A. L. Miller, G. L. Mills) 573

XIII. Factors Contributing to Genesis of Hyperlipoproteinemia and/or Atherosclerosis

Immunological Factors

Immunological Factors of Atherosclerosis (J. L. Beaumont, V. Beaumont) 579

Antibodies Against Vascular Antigens (S. Gerö, Judit Székely, Magdolna Bihari-Varga, Eva Szondy) 591

Hyperimmuno-Globulinemia-Lipoproteinemia and Atherogenesis (Lena A. Lewis, A. Lazzarini-Robertson, Jr.) 595

Hypertension

Workshop: Atherosclerosis-Hypertension Interrelationships (Chairmen: R. R. H. Lovell, A. G. Shaper) 604

Hormones

Workshop: Hormones and Atherosclerosis (Chairmen: M. F. Oliver) 608

Influence of Lipids on the Progesterone-Binding Affinity of Serum Albumin and α_1 -Acid Glycoprotein (U. Westphal, W. B. O. Edelen) 613

The Influence of Exercise on Growth Hormone (STH)-Secretion in Males with Atherosclerotic Lesions (H. Ditschuneit, H. H. Ditschuneit, E. Küter, D. Rakow, H. U. Klör, J.-D. Faulhaber) 617

Type III Hyperlipoproteinemia Secondary to Hypothyroidism (N. L. Lasser, J. Burns, Susan Solar) 621

XIV. Plasma Lipoproteins

<i>Workshop: Plasma Lipoproteins (Chairmen: P. Alaupovic, D. Seidel)</i>	629
Function and Structure of Plasma Lipoproteins (G. Assmann, D. S. Fredrickson) . .	641
Lipoprotein Synthesis, Intracellular Transport and Secretion in Liver (Y. Stein, O. Stein)	652
Lipoprotein Catabolism (D. Steinberg)	658
Comparative Electrophoretic Profiles of Serum Lipoproteins (Ch. E. Day, Catherine Alexander)	672
Studies on Apolipoprotein D. A New Protein Moiety of the Human Plasma Lipoprotein System (W. McConathy, P. Alaupovic)	676
Characterization of Low Density Lipoproteins from Patients Homozygous for Familial Hyperbetalipoproteinaemia (G. L. Mills, C. E. Taylaur)	679
Lipoprotein Abnormalities Associated with Type III Hyperlipoproteinaemia (Joan Slack, G. L. Mills)	682
Flotation Characteristics of the Lipoprotein Accumulated in the Plasma of Type III Patients (J. Patsch, S. Sailer)	686
Lipoprotein Pattern in Type III and Type IV Patients During Prolonged Fasting (S. Sailer, J. Patsch)	691

XV. Risk Factors

<i>Panel Discussion: Atherosclerosis: Risk Factor Screening and Early Diagnosis (Chairmen: H. G. Rose, A. Little)</i>	697
---	-----

XVI. Prevention

<i>Panel Discussion: Prevention of Vascular Disease and its Consequence in Man (Chairmen: M. F. Oliver)</i>	715
Long-Term Hypolipidemic Treatment in the Prevention of Recurrent Coronary Heart Disease (C. Caruzzo)	751

XVII. Dietary Management of Hyperlipoproteinemias

<i>Workshop: Dietary Management of Hyperlipoproteinemias (Chairmen: R. Furman, G. Schlierf)</i>	761
Effects of Hypolipidemic Regimes on Serum Lipoproteins (L. A. Carlson, A. G. Olsson, L. Orö, St. Rössner, G. Walldius)	768
Influence of Various Diets on Diurnal Levels of Plasma Glucose, Insulin, and Lipids in Obesity and Insulin-Independent Diabetics (A. J. Houtsmuller, M. M. A. van den Broeck-Boot, G. A. M. Peters)	782
Polyunsaturated Ruminant Fats and Cholesterol Metabolism in Man (P. Nestel, Nathalie Havenstein, T. Scott, L. Cook)	788

XVIII. Drug Therapy of Hyperlipoproteinemia

<i>Experience with Absorbable Drugs</i>	
<i>Workshop: Absorbable Drugs (Chairmen: N. Zöllner, R. Paoletti)</i>	793

Effect of a New Hypolipidemic, Hypouricemic Agent (Halofenate) in Hyperlipoproteinemic Subjects (St. L. Altschuler, D. Berkowitz)	803
A New Antiatherosclerotic Agent, EG467. Preliminary Report on its Experimental and Clinical Trial (T. Shimamoto, T. Atsumi, H. Murase, T. Sano, F. Numano, H. Yamazaki)	806
Long-Term Clofibrate Treatment in Familial Hyperlipoproteinemias (G. Crepaldi, D. Fedele, R. Fellin, G. Briani)	812

Experience with Non-Absorbable Drugs

<i>Workshop: Management of Hyperlipoproteinemias with Non-Absorbable Drugs (Chairmen: F. A. Gries, T. Miettinen)</i>	816
Enhancement of Cholesterol Metabolism by Colestipol Hydrochloride in Experimental Animals (Th. M. Parkinson, Th. Honohan, J. C. Schneider, Jr., G. Elfring, W. A. Phillips)	822

XIX. Surgical Treatment of Arteriosclerosis

<i>Workshop: Surgical Treatment of Arteriosclerosis (Chairmen: A. Senn, M. Trede)</i>	829
---	-----

Abstracts

1. Epidemiology	835
2. General Abstracts	847
