

# Radiation and Cellular Control Processes

Edited by J. Kiefer

With 176 Figures

Springer-Verlag  
Berlin Heidelberg New York 1976

# Contents

Introduction - On the Rationale of this Conference	
J. KIEFER .....	1
 <u>Chapter I Radiation and Metabolic Key Processes</u>	
1. Radiation Action on Biochemical Key Processes: An Introduction	
J.M. BOYLE (With 4 Figures) .....	5
2. On the Transcriptional Organization of the Ribosomal RNA Genes of Yeast	
J. RETEL, T.J. STOOFF, and R.J. PLANTA (With 3 Figures) .....	18
3. Control of DNA Polymerase Activity in Synchronized Growing Yeast after X-Irradiation	
H. ECKSTEIN (With 6 Figures) .....	25
4. DNA-Specific Labelling by Deoxyribonucleoside 5'-Monophosphates in <i>Saccharomyces cerevisiae</i>	
M. BRENDDEL, W.W. FÄTH, and R. TOPER (With 2 Figures) .....	35
5. Studies on DNA Synthesis in <i>Saccharomyces cerevisiae</i>	
U. WINTERSBERGER (With 2 Figures) .....	41
6. Metabolism of Yeast Cells after UV- and X-Ray Irradiation	
J. KIEFER, H. KOCH, B. LASKE, and H. WALLER (With 9 Figures) .....	48
7. Synthesis of the Inducible Enzyme Arginase in Irradiated Yeast Cells	
E. GOCKE and J. KIEFER (With 8 Figures) .....	59
8. Synthesis of RNA after Irradiation in Resistant and Sensitive Strains of the Slime-Mould <i>Dictyostelium discoideum</i>	
P.E. BRYANT (With 14 Figures) .....	68
 <u>Chapter II Repair and Recovery</u>	
1. Repair in Yeast	
E. MOUSTACCHI .....	83
2. Properties and Function of <i>Escherichia coli</i> DNA Polymerase I	
K.D. JENTSCH and T.M. JOVIN .....	86

3. Action of Sublethal Concentrations of SO <sub>2</sub> on Repair by Budding Yeast after Ionizing and UV Radiation J.L. DORANGE (With 2 Figures) .....	94
4. Reparable and Irreparable Damage in Yeast Cells after Low LET-Irradiation D. FRANKENBERG (With 2 Figures) .....	101
5. Survival of Yeast after Heavy Ion Irradiation U. BERTSCHE and H. LIESEM (With 7 Figures) .....	105
6. Incorporation of (Methyl <sup>3</sup> H) 5'-dTMP into DNA of Diploid Yeast Cells as Tracer of Liquid Holding Recovery after X-Ray Irradiation G.W. HÖLTZ and M. BRENDDEL (With 4 Figures) .....	111
7. Influence of Intracellular Adenosine-Triphosphate Concentration on Survival of Yeast Cells Following X-Irradiation R.D. REINHARD and W. POHLIT (With 4 Figures) ...	117
8. Split Dose Recovery and Liquid Holding Recovery in Diploid Yeast Exposed to Fractionated X-Irradiation I. WIENHARD and J. KIEFER (With 8 Figures) .....	124
9. Repair of Damage Induced by Near Ultraviolet Light Plus Furocoumarin in <i>Saccharomyces cerevisiae</i> D. AVERBECK (With 7 Figures) .....	139
10. Postreplication Repair of DNA in Mammalian Cells: A Discussion of the Mechanisms and Biological Importance A.R. LEHMANN .....	147
11. Radiation-Induced Mutagenesis and Mechanisms of Repair in the Yeast, <i>Schizosaccharomyces pombe</i> A. ABBONDANDOLO, R. BARALE, S. BARONCELLI, ST. BONATTI, G. BRONZETTI, A. CAMMELLINI, G. CORTI, N. LOPRIENO, A. MAZZACCARO, R. NIERI, and A.M. ROSSI .....	159
12. Accumulation of Replicative DNA Intermediates in Response to Damage of DNA in <i>Tetrahymena pyriformis</i> O. WESTERGAARD and K.A. MARCKER (With 5 Figures) .....	162
13. Recovery from Radiation Damage Mediated by Somatic Cell Hybridisation A.R. KINSELLA, P.J. SMITH, and J.M. BOYLE (With 6 Figures) .....	170
14. The Effect of Liquid Holding on Survival and Mitotic Recombination of Two UV-Sensitive <i>Saccharomyces</i> Diploids S. KOWALSKI and W. LASKOWSKI (With 7 Figures) ..	178

15. Over-Repair in <i>Closterium</i> : Increased Radio-resistance Caused by an Earlier Exposure to Radiation A. HOWARD and F.G. COWIE (With 4 Figures) .....	188
16. L5178Y Cell Strains Cross-Sensitive to X-Rays and UV-Light: Similarities and Differences in Recovery at the Cellular Level M. WALICKA, I. SZUMIEL, and J.Z. BEER (With 5 Figures) .....	196
17. Detection of Hybrid DNA Formed during Mitomycin C-Induced Sister Chromatid Exchange in Chinese Hamster Cells P.D. MOORE (With 4 Figures) .....	205
18. Dependence of Photoreactivating Enzyme - Substrate Complex Formation in <i>Saccharomyces</i> on Liquid Holding Treatment A. YASUI and W. LASKOWSKI (With 4 Figures) ....	214
19. Evaluation of the Action Spectrum of Yeast Photoreactivation in vivo by Means of Pulsed Dye Lasers A. ANDERS, A. YASUI, H. ZACHARIAS, I. LAMPRECHT, and W. LASKOWSKI (With 4 Figures) .....	221

### Chapter III Cell Division and Progression

1. Effects of UV- and Ionizing Radiation on Mitosis and Enzyme Regulation in the Synchronous Nuclear Division Cycle of <i>Physarum polycephalum</i> W. SACHSENMAIER and E. DWORZAK (With 10 Figures) .....	229
2. The Molecular Basis for the Control of Cell Division R.J. INGLIS, H.R. MATTHEWS, and E.M. BRADBURY (With 6 Figures) .....	240
3. Cell Division and the Effects of Cell Age upon Radiation Sensitivity in Yeast J.M. PARRY, E.M. PARRY, P.J. DAVIES, and W.E. EVANS (With 12 Figures) .....	249
4. Budding and Division Delay in Diploid Yeast after Irradiation G. FABER and J. KIEFER (With 7 Figures) .....	264
5. Synthesis of Histones in the Cell Cycle of <i>Saccharomyces cerevisiae</i> E. WINTERSBERGER and R. MOLL (With 3 Figures) .	271
6. Macromolecular Events Following Nutritional Shift-Up of <i>Tetrahymena</i> R.E. PEARLMAN (With 5 Figures) .....	278

7. Radiation-Induced Processes in Moss Cells: Short-Term and Long-Term Radiation Responses of Special Interest after Microbeam UV Irra- diation of the Haploid Moss Cells of <i>Funaria</i> <i>hygrometrica</i> Fr. R. v. DÖHREN (With 4 Figures) .....	286
8. Radiation Action on Lens Epithelial Cells H. RINK and H.-R. KOCH (With 4 Figures) .....	294
9. Radiation and Endocellular Control of Cell Proliferation K.-H. v. WANGENHEIM (With 1 Figure) .....	299
Closing Lecture - Modern Trends and Creeds in Radiobiology T. ALPER (With 3 Figures) .....	307
<u>Subject Index</u> .....	319
