CONTENTS

Foreword by Dame Janet Vaughan	vii
Preface to the English Edition	ix
Introduction - Some problems of the toxicology of radioactive substances - E.B. Kurlyandskaya	1
I. ABSORPTION, DISTRIBUTION AND EXCRETION OF RADIOACTIVE STRONTIUM, CAESIUM AND RUTHENIUM	13
Dynamics of accumulation of radioactive strontium in bones of rats during its continuous introduction into the stomach - A.A. Rubanovskaya and V.F. Ushakova	15
Distribution and excretion of radioactive strontium during its continuous oral administration to rabbits - E.B. Kurlyandskaya, N.L. Beloborodova and Ye.F. Baranova	20
Accumulation of radioactive strontium in young rats born to, and fed by females receiving continuous oral administration of ^{89}Sr or a mixture of ^{89}Sr and ^{90}Sr - A.A. Rubanovskaya and V.F. Ushakova	31
Distribution of radioactive caesium in the organism and its excretion - E.B. Kurlyandskaya, N.L. Belo- borodova and Ye.F. Baranova	42
The metabolism of radioactive ruthenium in the organism of experimental animals - L.N. Burykina	60
Study of the distribution of radioactive ruthenium by autoradiography - L.N. Burykina	77
II. THE RADIOTOXIC EFFECT OF RADIOACTIVE RUTHENIUM, CAESIUM, STRONTIUM AND RADON IN HIGH-DOSE EXPERIMENTS	81
Changes in the peripheral blood following a high-dose administration of radioactive ruthenium, strontium and caesium - L.N. Burykina	83
Effect of radioactive ruthenium, strontium and caesium on the activity of conditioned reflexes in white rats - L.N. Burykina	103

TOXICOLOGY OF RADIOACTIVE SUBSTANCES

Histological changes due to the strong action of radioactive ruthenium, strontium and caesium - L.N. Burykina	132
Effect of radioactive ruthenium dioxide on the organism of white rats following its intratracheal administration - L.N. Burykina	139
The radiotoxic action of radon - V.S. Kushneva	145
The experimental effects of combined quartz dust and radon - V.S. Kushneva	163
III. THE RADIOTOXIC EFFECT OF RADIOACTIVE RUTHENIUM, CAESIUM AND STRONTIUM IN CONTINUOUS EXPERIMENTS	171
Radiotoxic effect of ^{89}Sr under the conditions of a continuous experiment - N.L. Beloborodova and Ye.F. Baranova	173
Changes in the peripheral blood on continuous administration of radioactive caesium - N.L. Beloborodova and Ye.F. Baranova	185
Effect of prolonged oral administration of radioactive ruthenium on the peripheral blood - N.L. Beloborodova and Ye.F. Baranova	192
Investigation of the functional state of the blood-formation system in rabbits subjected to continuous administration of radioactive caesium, strontium and ruthenium - N.L. Beloborodova and Ye.F. Baranova	197
IV. STIMULATION OF THE EXCRETION OF RADIOACTIVE STRONTIUM AND CAESIUM FROM THE ORGANISM	227
Effect of daily administration into the stomach of non-radioactive strontium lactate and magnesium sulphate on the excretion of radioactive strontium deposited in the skeleton - A.A. Rubanovskaya and V.F. Ushakova	229
Effect of daily subcutaneous administration of the stable caesium isotope on the excretion of radioactive caesium from the organism - E.B. Kurlyandskaya	234
