

Volume 43

Advances in Genetics

Edited by

Jeffrey C. Hall

Department of Biology
Brandeis University
Waltham, Massachusetts

Jay C. Dunlap

Department of Biochemistry
Dartmouth Medical School
Hanover, New Hampshire

Theodore Friedmann

Center for Molecular Genetics
University of California at San
Diego School of Medicine
La Jolla, California

Francesco Giannelli

Division of Medical and
Molecular Genetics
United Medical and Dental
Schools of Guy's and St.
Thomas' Hospitals
London Bridge, London
United Kingdom

ACADEMIC PRESS

A Harcourt Science and Technology Company

San Diego San Francisco New York
Boston London Sydney Tokyo

Contents

Contributors vii

1 Recent Advances in the Molecular Basis of Inherited Skin Diseases 1

John A. McGrath and Robin A. J. Eady

- I. Introduction 2
- II. Organization and Composition of the Epidermis and Dermal-Epidermal Junction 3
- III. Inherited Skin Disease Mutations 9
- IV. Translational Benefits of Mutation Discoveries 23
- References 26

2 Molecular Genetics and Target Site Specificity of Retroviral Integration 33

Michelle L. Holmes-Son, Rupa S. Appa, and Samson A. Chow

- I. Retroviral Integration 34
- II. Target Site Selection during Retroviral Integration 42
- III. Site-Directed Integration 52
- IV. Concluding Remarks 60
- References 60

3 Xeroderma Pigmentosum and Related Disorders: Defects in DNA Repair and Transcription 71

Mark Berneburg and Alan R. Lehmann

- I. Introduction 72
- II. Xeroderma Pigmentosum 73
- III. Cockayne Syndrome 88
- IV. Trichothiodystrophy 90
- V. Outstanding Clinical Questions 91
- VI. Concluding Remarks 94
- References 94

4 Primary Immunodeficiency Mutation Databases 103

Mauno Vihinen, Francisco X. Arredondo-Vega,
Jean-Laurent Casanova, Amos Etzioni, Silvia Giliani,
Lennart Hammarström, Michael S. Hershfield,
Paul G. Heyworth, Amy P. Hsu, Aleksi Lähdesmäki,
Ilkka Lappalainen, Luigi D. Notarangelo,
Jennifer M. Puck, Walter Reith, Dirk Roos,
Richard Fabian Schumacher, Klaus Schwarz,
Paolo Vezzoni, Anna Villa, Jouni Väliäho,
C. I. Edvard Smith

I. Introduction	105
II. Antibody Deficiencies	116
III. T-Cell Deficiencies	121
IV. Combined Immunodeficiencies	124
V. Other Well-Defined Immunodeficiencies	145
VI. Phagocytic Immunodeficiencies	151
VII. Discussion	170
References	172

Index	189
