

# CONTENTS

Contributors .....	vii
--------------------	-----

## **Phylogeny and Ontogeny of Chemical Signaling: Origin and Development of Hormone Receptors**

G. Csaba

I. Introduction .....	1
II. Signal Molecules and Receivers in Unicellular Organisms .....	3
III. Ontogeny of Hormone Receptors .....	24
IV. Conclusions .....	37
References .....	38

## **Growth Factor-Induced Cell Migration: Biology and Methods of Analysis**

Marianne Manske and Ernesto G. Bade

I. Introduction .....	49
II. Analysis of Cell Migration .....	53
III. Growth Factors That Modulate Cell Migration .....	67
IV. Conclusions and Outlook .....	81
References .....	81

## **Physiological and Biochemical Aspects of Cytoplasmic Streaming**

Teruo Shimmen and Etsuo Yokota

I. Introduction .....	97
-----------------------	----

II. Mechanism of Motive Force Generation .....	98
III. Demembrated Cell Models of Characeae and Characteristics of Cytoplasmic Streaming .....	110
IV. Extracellular Factors Affecting Cytoplasmic Streaming .....	120
V. Concluding Remarks .....	129
References .....	131

## **Cell and Molecular Biology of Flagellar Dyneins**

David R. Mitchell

I. Introduction .....	141
II. Dyneins in Flagellar Motility .....	142
III. Outer Row Dyneins .....	146
IV. Inner Row Dyneins: 57 Varieties? .....	162
V. Distinct Roles for Outer and Inner Row Dyneins .....	166
VI. The Cross-Bridge Cycle .....	168
VII. Dynein Regulation .....	170
VIII. Conclusions .....	173
References .....	175

## **Morphological and Functional Reorganization of Human Carcinomas *in Vitro***

Petra Köpf-Maier, Birgit Kolon, and Markus Bugenings

I. Introduction .....	181
II. Cell Culture Systems for Growing Human Carcinomas .....	182
III. High-Density (Organoid) Culture .....	187
IV. Concluding Remarks .....	245
References .....	252
Index .....	259
