Clathrin-Coated Vesicles in Plants

Leonard Beevers

I. Historical Background	1
II. Function	2
III. Isolation	8
IV. Composition of Coated Vesicles	10
V. Uncoating	22
VI. Acidification	23
VII. Prospects and Unresolved Problems	26
References	28

Peptides in the Nervous Systems of Cnidarians: Structure, Function, and Biosynthesis

Cornelis J. P. Grimmelikhuijzen, Ilia Leviev, and Klaus Carstensen

I. Introduction	38
II. Anatomy of the Cnidarian Nervous System	39
III. Neurotransmission	42
IV. Neuropeptides	43
V. Peptide Receptors	55
VI. Biosynthesis of Neuropeptides	57
VII. Discussion	77
VIII. Perspectives	82
References	83

M Cells in Peyer's Patches of the Intestine

Andreas Gebert, Hermann-Josef Rothkötter, and Reinhard Pabst

I.	Introduction	91
II.	Lymphoid Cells in the Gut Wall	92
III.	Dome Epithelium	99
IV.	M Cells	111
V.	Other Cells of the Dome Epithelium	130
VI.	M Cells at Locations Outside the Gut	135
VII.	Clinical Relevance and Perspectives	138
	References	144

pp125^{FAK} in the Focal Adhesion

Carol A. Otey

I.	Introduction	161
II.	Structure of FAK	165
III.	Regulation of FAK Activity	168
IV.	Downstream Effects of FAK	172
V.	Concluding Remarks	178
	References	179

Feedback Inhibitors in Normal and Tumor Tissues

E. Marshall and B. I. Lord

I.	Introduction	185
II.	Feedback Inhibition	189
III.	Cell Proliferation	192
IV.	Inhibitors of Hemopoietic Stem Cell Proliferation	198
V.	Feedback Regulators and Tumor Tissues	232
VI.	Clinical Perspectives	238
VII.	Concluding Remarks	243
	References	244

The Incidence, Origin, and Etiology of Aneuploidy

Darren K. Griffin

I.	Introduction	263
II.	Incidence	265

CONTENTS

vii

III. Origin	272
IV. Etiology	274
V. The Role of Chromosomal Mosaicism in Humans	286
VI. Concluding Remarks	289
References	291
 Index	 297
