Biology of Plant Cells in Microgravity and under Clinostating

Elizabeth J. Kordyum

| | |
|---|----|
| I. Introduction | 1 |
| II. Methodology of Experiments with Plants in Altered Gravity | 4 |
| III. Structural-Functional Organization of Plant Cells in Altered Gravity | 10 |
| IV. Characteristics of Plant Cell Organelle Rearrangements in Altered Gravity | 46 |
| V. Concluding Remarks | 62 |
| References | 63 |

The Use of Antibodies to Study the Architecture and Developmental Regulation of Plant Cell Walls

J. Paul Knox

| | |
|--|-----|
| I. Introduction | 79 |
| II. Antibodies as Molecular Probes for the Plant Cell Surface | 83 |
| III. Generation and Use of Antibodies to the Major Cell Wall Polymers of Higher Plants ... | 85 |
| IV. Uncovering Cell Surface Markers of Cell Development with Monoclonal Antibodies ... | 100 |
| V. Monoclonal Antibodies to Algal Cell Walls | 105 |
| VI. Cell Walls and Plant-Microbe Interactions | 107 |
| VII. Conclusions and Prospects | 109 |
| References | 110 |

Biophysical Aspects of P-Glycoprotein-Mediated Multidrug Resistance

Randy M. Wadkins and Paul D. Roepe

| | | |
|------|--|-----|
| I. | Introduction | 122 |
| II. | Review of Drug Transport Studies | 128 |
| III. | Other Data Important in Analyzing Drug Transport | 137 |
| IV. | The Recent Controversy over ATP Transport | 155 |
| V. | Implications for Other Forms of "ABC-MDR" | 157 |
| VI. | Conclusions | 158 |
| | References | 159 |

Normal and Pathological Tau Proteins as Factors for Microtubule Assembly

André Delacourte and Luc Buée

| | | |
|------|--|-----|
| I. | Introduction | 167 |
| II. | Microtubules and Microtubule-Associated Proteins | 168 |
| III. | Role of Tau Proteins in Microtubule Assembly | 175 |
| IV. | Pathological Tau Proteins | 185 |
| V. | Lessons Given by Pathological Tau Proteins | 204 |
| VI. | Concluding Remarks | 208 |
| | References | 210 |

Differentiation and Transdifferentiation of the Retinal Pigment Epithelium

Shulei Zhao, Lawrence J. Rizzolo, and Colin J. Barnstable

| | | |
|------|---|-----|
| I. | Introduction | 225 |
| II. | Development of the RPE | 227 |
| III. | Instability of the RPE Differentiated State | 243 |
| IV. | Transdifferentiation of RPE | 248 |
| V. | Concluding Remarks | 256 |
| | References | 256 |

The Role of Endothelins in the Paracrine Control of the Secretion and Growth of the Adrenal Cortex

Gastone G. Nussdorfer, Gian Paolo Rossi, and Anna S. Belloni

| | | |
|-------|--|-----|
| I. | Introduction | 267 |
| II. | Endothelin Biosynthesis | 269 |
| III. | Endothelin Receptor Subtypes and Their Localization | 270 |
| IV. | Effects of Endothelins on the Secretory Activity of the Adrenal Cortex | 275 |
| V. | Effects of Endothelins on the Growth of the Adrenal Cortex | 286 |
| VI. | Regulation of Endothelin Release | 291 |
| VII. | Involvement of Endothelins in Pathophysiology | 293 |
| VIII. | Concluding Remarks | 295 |
| | References | 297 |
| | Index | 309 |
