Structure of the Insect Head in Ontogeny and Phylogeny: A View from *Drosophila*

Bryan T. Rogers and Thomas C. Kaufman

I. Introduction	1
II. Segmental Organization of the Head	11
III. Genetic Control of Segmentation in <i>Drosophila</i>	17
IV. Evolution of Segmentation	27
V. Genetic Control of Segment Diversity	29
VI. Evolution of the Genetic Control of Development	54
VII. Concluding Remarks	65
References	72

Functional Reconstitution of the Tonoplast Proton- ATPase from Higher Plants

Kunihiro Kasamo and Hiroyasu Yamanishi

I. Introduction	85
II. Physiological Functions of V-ATPase	86
III. Molecular Structure and Function of the Tonoplast H ⁺ -ATPase	92
IV. Molecular Cloning of cDNA of the Tonoplast H ⁺ -ATPase	95
V. Functional Reconstitution of the H ⁺ Pump	100
VI. Future Prospects	113
VII. Concluding Remarks	115
References	116

The Role of Molecular Chaperones in Mitochondrial Protein Import and Folding

Michael T. Ryan, Dean J. Naylor, Peter B. Høj, Margaret S. Clark,
and Nicholas J. Hoogenraad

I. Introduction	127
II. Historical Perspective	128
III. Targeting of Proteins to the Mitochondrion	135
IV. Protein Translocation across Mitochondrial Membranes	142
V. Role of Matrix Chaperones in Protein Import	146
VI. Protein Folding within the Matrix	149
VII. Roles of Chaperones in Protein Degradation within the Mitochondrion	152
VIII. Regulation of Chaperone Expression	160
IX. Chaperones and Disease	166
X. Concluding Remarks	173
References	174

Proteoglycans and Related Components in Plant Cells

Eugene A. Nothnagel

I. Introduction	195
II. General Characteristics of the Plant Cell Surface	196
III. Scope of This Review	200
IV. Definitions	201
V. Probes of AGPs	204
VI. Distribution of AGPs	214
VII. Structure of AGPs	217
VIII. Biosynthesis and Degradation of AGPs	235
IX. Localization of AGPs to Defined Cell Surface Sites	240
X. Functions of AGPs	245
XI. Plant Analogs of Animal Cell Surface Components	268
XII. Concluding Remarks	275
References	276
Index	293
