The Division Apparatus of Plastids and Mitochondria

Tsuneyoshi Kuroiwa, Haruko Kuroiwa, Atsushi Sakai, Hidenori Takahashi,
Kyoko Toda, and Ryuichi Itoh

I. Introduction	1
II. Cyanidiophyceae (Unicellular Red Algae) as Model Systems for Analyses of Organelle Division	6
III. Division Apparatus of Plastids	7
IV. Mitochondrion-Dividing Apparatus	21
V. Phylogeny of Organelle-Dividing Apparatus	30
VI. Significance of Organelle-Dividing Apparatus during Evolution of Eukaryotes	34
VII. Different Control Systems in Mitochondrial and Plastid Division and Growth	34
VIII. Division Cycle of Other Organelles: The Microbody and Golgi Body	35
IX. Conclusions	35
References	38

Nuclear and Cytoplasmic Glycosylation

Doris M. Snow and Gerald W. Hart

I. Introduction	43
II. Distribution and Roles of <i>O</i> -GlcNAc	44
III. <i>O</i> -GlcNAc as a Dynamic Regulatory Modifier	58
IV. Sensitive Methods for Identifying <i>O</i> -GlcNAcylated Proteins	63
V. Concluding Remarks	66
References	66

Microtubule-Organizing Centers and Nucleating Sites in Land Plants

Kevin C. Vaughn and John D. I. Harper

I.	Introduction	75
II.	Structural Studies	79
III.	Living Plant Cells	99
IV.	Antibodies to MTOC Proteins	107
V.	Factors Affecting the Assembly of Plant MTOCs	124
VI.	Assembly of Plant MTs	129
VII.	Summary of Proposed MTOC Sites for MT Arrays in Land Plants	134
VIII.	Conspectus	136
	References	138

The Wilms' Tumor 1 Gene: Oncogene or Tumor Suppressor Gene?

A. L. Menke, A. J. van der Eb, and A. G. Jochemsen

I.	Introduction	151
II.	The Wilms' Tumor 1 Gene and Its Products	152
III.	WT1 in Apoptosis and Tumorigenesis	177
IV.	Concluding Remarks	195
	References	199

Exocytosis in Chromaffin Cells of the Adrenal Medulla

Dominique Aunis

I.	Introduction	213
II.	Chromaffin Cells	215
III.	Chromaffin Granules	229
IV.	Exocytotic Machinery	237
V.	Regulatory Mechanisms of Exocytosis in Chromaffin Cells	265
VI.	Conclusions	286
	References	287
