Organellar RNA Polymerases of Higher Plants

Wolfgang R. Hess and Thomas Börner

I. Introduction	1
II. The Mitochondrial RNA Polymerase	2
III. The Chloroplast RNA Polymerases	15
IV. Evolution of Plant Phage-Type RNAPs	35
V. Concluding Remarks	43
References	51

Eukaryotic Transmembrane Solute Transport Systems

Milton H. Saier, Jr.

I. Introduction	62
II. Transport Nomenclature	65
III. The Transport Commission System of Transporter Classification	67
IV. Eukaryotic-Specific Families of Transporters	94
V. Transporters Encoded within the Yeast Genome	123
VI. Transport Proteins for Which High Resolution Three-Dimensional Structures Are Available	125
VII. Concluding Remarks	126
References	128

Neural Plasticity in the Adult Insect Brain and Its Hormonal Control

Colette Strambi, Myriam Cayre, and Alain Strambi

I.	Introduction	137
II.	Adult Insect Endocrinology	139
III.	Behavioral Plasticity and Its Hormonal Control	144
IV.	Neural Plasticity	149
V.	Concluding Remarks	161
	References	163

Mechanism of Action of P-Glycoprotein in Relation to Passive Membrane Permeation

Gera D. Eytan and Philip W. Kuchel

I.	Introduction	176
II.	Mechanism of Transbilayer Movement of Drugs	182
III.	Drug Adsorption to the Plasma Membrane	196
IV.	Stoichiometry of Pgp-Mediated ATP-Hydrolysis to Drug Transport	198
V.	An Integrative Model of Drug Transport in MDR Cells	207
VI.	Is the Multidrug Transporter a Flippase?	216
VII.	Mechanism of Pgp Modulation	223
VIII.	Concluding Remarks	232
	Appendix: <i>Mathematica</i> Model of Drug Transport into and out of a Cell	233
	References	240

Plasmodesmata and Cell-to-Cell Communication in Plants

Biao Ding, Asuka Itaya, and Young-Min Woo

I.	Introduction	251
II.	Plasmodesma, a Supramolecular Complex	252
III.	Plasmodesmata in Intercellular Trafficking of Proteins and Nucleic Acids	259
IV.	Intercellular Macromolecular Trafficking in Animals: Parallel Mechanisms and Functions with Trafficking in Plants	277
V.	Plasmodesmata and Plant Developmental Domains	280
VI.	Secondary Plasmodesmata and Modification of Existing Plasmodesmata	288
VII.	Some Evolutionary Aspects of Cell-to-Cell Communication	296

CONTENTS

vii

VIII. Concluding Remarks	301
References	302
Index	317
