Structural and Functional Evolution of the Natriuretic Peptide System in Vertebrates

Yoshio Takei

I. Introduction	2
II. A Family of Natriuretic Peptides	3
III. A Family of Natriuretic Peptide Receptors	18
IV. Biological Actions of Natriuretic Peptides	28
V. Concluding Remarks	49
References	50

The Kinetochore of Higher Eucaryotes: A Molecular View

Todd Maney, Laura M. Ginkel, Andrew W. Hunter, and Linda Wordeman

I. Introduction	67
II. A Review of Kinetochore Morphology	68
III. The CREST Breakthrough	71
IV. Assorted Kinetochore Components	72
V. Motor Properties of the Kinetochore	85
VI. Spindle Checkpoint at the Kinetochore	94
VII. Concluding Remarks	117
References	118

Mitochondrial Proteins at Unexpected Cellular Locations: Export of Proteins from Mitochondria from an Evolutionary Perspective

Bohdan J. Soltys and Radhey S. Gupta

I.	Introduction	133
II.	Mitochondrial Matrix Proteins at Extramitochondrial Sites	136
III.	Mitochondrial 16S rRNA and DNA	153
IV.	Mitochondrial Protein Export	155
V.	Toward an Integration of Mitochondrial and Endoplasmic Reticulum Dynamics	177
VI.	Concluding Remarks	181
	References	183

The Petite Mutation in Yeasts: 50 Years On

Xin Jie Chen and G. Desmond Clark-Walker

I.	Introduction	197
II.	Historical Perspectives	198
III.	Respiratory Deficient Mutations in Other Yeasts	201
IV.	What Is the Vital Role of mtDNA in Petite-Negative Yeasts?	205
V.	Nuclear Mutations Predisposing Petite-Negative Yeasts to the Formation of Cytoplasmic Petites	209
VI.	Genes Required for Viability of Petites in <i>S. cerevisiae</i>	215
VII.	Concluding Remarks	224
	References	225

Effects of Stress on Cellular Infrastructure and Metabolic Organization in Plant Cells

Miguel A. Aon, Sonia Cortassa, Diego F. Gomez Casati, and Alberto A. Iglesias

I.	Introduction	239
II.	Organization of Intracellular Milieu	240
III.	Cytoskeleton Organization in Different Cells	249
IV.	Stress-Induced Metabolic Effects in Plant Cells	254
V.	Metabolic Organization Following Cytoskeleton Rearrangement	258
VI.	Concluding Remarks	267
	References	268
