Paternal Contributions to the Mammalian Zygote: Fertilization after Sperm-Egg Fusion

Peter Sutovsky and Gerald Schatten

I. Introduction	2
II. Sperm-Oocyte Interactions	2
III. The Centrosome, Sperm Nucleus, and Pronucleus	14
IV. Other Potential Paternal Contributions	28
V. Concluding Remarks	46
References	47

Coat Proteins Regulating Membrane Traffic

Suzie J. Scales, Marie Gomez, and Thomas E. Kreis

I. Introduction	67
II. Clathrin and Adaptor Proteins	69
III. Coat Proteins	78
IV. Models for Membrane Traffic in Eukaryotic Cells	96
V. Regulation of Membrane Traffic through Coat Proteins	111
VI. Emerging Families of Coat Proteins	116
VII. Conclusions and Perspectives	119
References	120

Regulation of Monoamine Receptors in the Brain: Dynamic Changes during Stress

Gabriele Flügge

I.	Introduction	145
II.	Monoamines	147
III.	Monoamine Receptors	152
IV.	Stress and the Tree Shrew Paradigm	177
V.	Concluding Remarks	193
	References	195

Rhodopsin Trafficking and Its Role in Retinal Dystrophies

Ching-Hwa Sung and Andrew W. A. Tai

I.	Introduction	215
II.	The Rod Photoreceptor: A Highly Polarized Cell	216
III.	Rapid Turnover of Rod Disk Membranes	223
IV.	Rhodopsin Trafficking at the Subcellular Level in Normal Rod Photoreceptors	226
V.	Rhodopsin Trafficking in Pathological Conditions	231
VI.	Molecular Mechanisms of Rhodopsin Trafficking	238
VII.	Rhodopsin Trafficking and Photoreceptor Survival	251
VIII.	Concluding Remarks	254
	References	255

Calcium Signaling during Abiotic Stress in Plants

Heather Knight

I.	Introduction	269
II.	Low Temperature Stress	271
III.	Osmotic Stress, Drought, and Salinity Stress	283
IV.	Oxidative Stress	290
V.	Anoxia	296
VI.	Heat Stress	299
VII.	Mechanical Stress	301
VIII.	Interactions between Signals	308
IX.	Concluding Remarks	310
	References	313
