

VITAMINS AND HORMONES

ADVANCES IN RESEARCH AND APPLICATIONS

Editor-in-Chief

GERALD LITWACK

*Department of Biochemistry and Molecular Pharmacology
Jefferson Medical College
Thomas Jefferson University
Philadelphia, Pennsylvania*

Volume 54

ACADEMIC PRESS

San Diego London Boston
New York Sydney Tokyo Toronto

Contents

| | |
|---------------|----|
| PREFACE | xi |
|---------------|----|

Clinical Aspects of Leptin

MADHUR K. SINHA AND JOSÉ F. CARO

| | |
|---|----|
| I. Introduction | 1 |
| II. Basic Knowledge from Genetic and Experimental Models of Obesity | 2 |
| III. The ob Gene Mutation and Linkage Studies | 3 |
| IV. Adipose Tissue ob mRNA Expression in Obesity | 5 |
| V. Leptin in Normal and Diseased States | 5 |
| VI. Leptin and Energy Balance | 11 |
| VII. Hormonal Regulation of Leptin | 14 |
| VIII. Circadian Rhythm | 16 |
| IX. Pulsatile Secretion | 17 |
| X. Binding Proteins and Their Physiological Significance | 18 |
| XI. Mechanism(s) of Leptin Resistance | 21 |
| XII. Summary | 22 |
| References | 24 |

Alcohol, Calories, and Appetite

WILLIAM E. M. LANDS

| | |
|---|----|
| I. Introduction | 31 |
| II. Reproducible Findings | 32 |
| III. Molecular Mechanisms and Teleology | 39 |
| IV. Planning for a Future | 43 |
| References | 45 |

Neuropeptide Y-Induced Feeding and Its Control

STEPHEN C. HEINRICHS, FRÉDÉRIQUE MENZAGHI, AND GEORGE F. KOOB

| | |
|--|----|
| I. Introduction | 51 |
| II. Neurobiology of NPY in Energy Balance Regulation | 52 |

| | | |
|------|--|----|
| III. | Molecular Biological Approaches to Examine NPY Functionality | 55 |
| IV. | Neurochemicals That Modulate NPY-Induced Appetite | 56 |
| V. | Role of NPY in the Etiology of Eating Disorders | 60 |
| | References | 62 |

Regulation of Insulin Action by Protein Tyrosine Phosphatases

**BARRY J. GOLDSTEIN, PEI-MING LI, WENDI DING, FAIYAZ AHMAD,
AND WEI-REN ZHANG**

| | | |
|------|--|----|
| I. | Introduction | 67 |
| II. | Role of PTPases in the Regulation of Cellular Insulin Signaling | 68 |
| III. | Alterations in PTPase Activity and Enzyme Expression in Insulin-Resistant States | 81 |
| IV. | Regulation of PTPases Relevant to Insulin Action | 88 |
| V. | Conclusions | 88 |
| | References | 89 |

Capacitative Calcium Influx

DAVID THOMAS, HAK YONG KIM, AND MICHAEL R. HANLEY

| | | |
|------|---|-----|
| I. | Introduction | 97 |
| II. | Mechanisms of Capacitative Calcium Influx | 100 |
| III. | Channels Mediating Capacitative Calcium Influx Response | 110 |
| IV. | Perspectives and Conclusions | 113 |
| | References | 114 |

Regulation of Peroxisome Proliferator-Activated Receptors

**HILDE NEBB SØRENSEN, ECKARDT TREUTER,
AND JAN-ÅKE GUSTAFSSON**

| | | |
|------|--|-----|
| I. | Introduction | 121 |
| II. | PPARs Belong to the Superfamily of Nuclear Hormone Receptors | 122 |
| III. | Cloning of PPAR Subtypes | 126 |
| IV. | Activation of PPARs | 132 |
| V. | PPAR Signal Transduction Pathway | 138 |

| | |
|--|-----|
| VI. Transactivation Properties of PPARs: Cross-Talk with Other Nuclear Receptors | 139 |
| VII. Regulation of PPAR Gene Expression: Biological Significance | 153 |
| VIII. Concluding Remarks | 155 |
| References | 156 |

Steroid Hormone Receptors and Heat Shock Proteins

ULRICH GEHRING

| | |
|--|-----|
| I. Introduction | 167 |
| II. States of Steroid Hormone Receptors | 169 |
| III. Structure of Nonactivated Steroid Hormone Receptors | 170 |
| IV. Receptor-Associated Proteins | 177 |
| V. <i>In Vitro</i> Association of Heat Shock Proteins with Steroid Hormone Receptors | 189 |
| References | 194 |

Mechanisms of Protein Secretion in Endocrine and Exocrine Cells

THOMAS F. J. MARTIN

| | |
|--|-----|
| I. Introduction | 207 |
| II. Mechanisms of Regulated Membrane Fusion in Neural Cells | 208 |
| III. Similarities and Differences between Secretory Mechanisms Involving Clear and Dense Core Vesicles | 212 |
| IV. SNARE Proteins in Adrenal Chromaffin and PC12 Cells | 214 |
| V. SNARE Proteins in Pancreatic Endocrine Cells | 215 |
| VI. SNARE Proteins in the Pituitary | 216 |
| VII. SNARE Proteins in Exocrine Cells | 217 |
| VIII. Calcium Regulation of Secretion in Endocrine and Exocrine Cells: Role of Synaptotagmins | 219 |
| References | 221 |
| INDEX | 227 |
