## CONTENTS

CONTRIBUTORS

ix

### Surrogate Light Chain in B Cell Development

HAJIME KARASUYAMA, ANTONIUS ROLINK, AND FRITZ MELCHERS

I. Introduction	1
II. Surrogate Light Chain Genes and Their Regulation	4
III. Expression of Surrogate Light Chain	5
IV. Functional Roles of Surrogate Light Chain in B Cell Development	15
V. Ligand and Signal Transduction of Surrogate Light Chain Complex	25
VI. Other Surrogate Light Chain-like Molecules	29
VII. Concluding Remarks	30
References	31

### CD40 and Its Ligand

LISA B. CLARK, TERESA M. FOY, AND RANDOLPH J. NOELLE

I. Introduction	43
II. CD40 and Ligand Expression and Molecular Structure	45
III. Intracellular Signal Transduction through CD40	50
IV. CD40-gp39 Functional Interactions	52
V. The Role of CD40 Signaling in B Lymphocyte Proliferation	53
VI. The Role of CD40 in Immunoglobulin Production	58
VII. The Role of CD40 in Germinal Center and Memory Cell Formation	70
VIII. Summary	73
References	74

### Human Immunodeficiency Virus Infection of Human Cells Transplanted to Severe Combined Immunodeficient Mice

DONALD E. MOSIER

I. Introduction	79
II. Description of Human-to-Mouse Xenograft Models	79

III. Human Immunodeficiency Virus	83
IV. HIV-1 Infection in the hu-PBL-SCID Model	90
V. HIV-1 Infection in the SCID-hu thy/liv Model	99
VI. Conclusions	107
References	108

## Lessons from Immunological, Biochemical, and Molecular Pathways of the Activation Mediated by IL-2 and IL-4

ANGELITA REBOLLO, JAVIER GÓMEZ, AND CARLOS MARTÍNEZ-A.

I. Introduction	127
II. Cell Surface Receptors for IL-2 and IL-4	128
III. From Nonreceptor Protein Tyrosine Kinases to Adaptor Molecules	133
IV. From Ras to the MAPK Pathway	143
V. From the GTP-Binding Protein Rho to Control of the Cytoskeleton	149
VI. Nuclear Transcription Factor NF- $\kappa$ B	157
VII. Target Genes in IL-2 Signals	160
VIII. The Counterpart of Protein Kinases: The Phosphoprotein Phosphatases	164
IX. Specific Signaling Molecules for IL-4, IL-9, IL-13, and Insulin Receptors	167
X. Cooperation of the Three IL-2-Induced Signaling Pathways	169
XI. Concluding Remarks	173
References	176

## B Lymphocyte Development and Transcription Regulation *in Vivo*

DAVINA OPSTELTEN

I. Introduction	197
II. Transcription Regulation <i>in Vivo</i>	198
III. B Lymphocyte Development <i>in Vivo</i> in the Normal Mouse	203
IV. Transcription Factors in B Lymphocyte Genesis	216
V. Concluding Remarks	250
References	251

## Soluble Cytokine Receptors: Their Roles in Immunoregulation, Disease, and Therapy

RAFAEL FERNANDEZ-BOTRAN, PAULA M. CHILTON, AND YUHE MA

I. Introduction	269
II. Regulation of Cytokine Activity	270
III. Cytokine Receptors: Membrane and Soluble Forms	279

IV. Production of Soluble Cytokine Receptors	280
V. The Immunoregulatory Function of Soluble Cytokine Receptors	285
VI. The Properties of Soluble Cytokine Receptors and Relationship to Disease	290
VII. Soluble Cytokine Receptors and Therapy	310
VIII. Summary and Conclusions	314
References	316

## Cytokine Expression and Cell Activation in Inflammatory Arthritis

LIONEL B. IVASHKIV

I. Introduction	337
II. The Inflammatory Synovial Environment	337
III. Assessment of Cytokine Expression and Activity in Synovitis	341
IV. Pro-inflammatory Cytokines and Growth Factors	343
V. Anti-inflammatory Cytokines and Cytokine Inhibitors: A Double-Edged Sword?	348
VI. Chemotactic and Angiogenic Factors	351
VII. T Cell Cytokines	352
VIII. Mechanisms of Synovial Cell Activation by Cytokines	356
IX. Sustained Cytokine Expression and Cytokine Balance	360
X. Conclusions	363
References	364

## Prolactin, Growth Hormone, and Insulin-like Growth Factor I in the Immune System

RON KOOIJMAN, ELISABETH L. HOOGHE-PETERS, AND ROBERT HOOGHE

I. Introduction	377
II. Hormones	379
III. Receptors	393
IV. <i>In Vivo</i> Effects of PRL, GH, and IGF-I on the Lymphohemopoietic System	404
V. <i>In Vitro</i> Effects of PRL, GH, and IGF-I on Lymphohemopoietic Cells	410
VI. IGF-II and IGF-Binding Proteins	418
VII. Autoimmunity	420
VIII. Lymphoproliferative Diseases	426
IX. Technical Aspects	429
X. Perspectives	431
References	434

INDEX	455
CONTENTS OF RECENT VOLUMES	467
