CONTENTS

CONTRIBUTORS

ix

The Function of Small GTPases in Signaling by Immune Recognition and Other Leukocyte Receptors

AMNON ALTMAN AND MARCEL DECKERT

I. Introduction	1
II. The Function of Ras in IRR Signaling	3
III. The Function of Rho-Family GTPases in IRR Signaling	25
IV. CD28 Signaling in T Cells: The Roles of Small GTPases	49
V. The Function of Rab GTPases in Leukocytes	52
VI. Small GTPases and Aberrant Leukocyte Functions	53
VII. The Role of Small GTPases in Lymphocyte Development	64
References	70

Function of the CD3 Subunits of the Pre-TCR and TCR Complexes during T Cell Development

BERNARD MALISSEN, LAURENCE ARDOUIN, SHIH-YAO LIN, ANNE GILLET, AND MARIE MALISSEN

I. Introduction	103
II. Mouse $\alpha\beta$ T Cell Development	106
III. The Pre-TCR Sensor	109
IV. The $\alpha\beta$ TCR Sensor	128
V. Raison d'être of the Pre-TCR	131
VI. Are the Roles of the Pre-TCR and TCR Complexes Limited to Ensure Cell Survival?	131
VII. The Limits of Genetic Analysis: Redundancy and Adaptive Response to Certain Mutations	138
VIII. Conclusions	140
References	141

Inhibitory Pathways Triggered by ITIM-Containing Receptors

SILVIA BOLLAND AND JEFFREY V. RAVETCH

I. Introduction	149
II. Inhibitory Receptors and Activating Counterparts	150
III. FcγRII-Mediated Inhibitory Signal	154
IV. Mechanism of Inhibition by SHIP	158
V. Inhibition by KIR Receptors	161
VI. Lessons from SHIP, SHP-1, and SHP-2 Knockout Mice	163
VII. Conclusions	165
References	166

ATM in Lymphoid Development and Tumorigenesis

YANG XU

I. Lymphoid Defects and Tumorigenesis in Ataxia-Telangiectasia Patients	179
II. The <i>ATM</i> Gene	180
III. Dissecting the Lymphoid Defects and Tumorigenesis in A-T Mouse Models	181
IV. Future Perspectives	185
References	186

Comparison of Intact Antibody Structures and the Implications for Effector Function

LISA J. HARRIS, STEVEN B. LARSON, AND ALEXANDER MCPHERSON

I. Introduction	191
II. Hinge-Deleted Dob and Mcg	192
III. Partial Structure of Kol	193
IV. Mab231	196
V. Mab61.1.3	198
VI. Biological Implications and Effector Functions	199
VII. Concluding Remarks	203
References	205

Lymphocyte Trafficking and Regional Immunity

EUGENE C. BUTCHER, MARNA WILLIAMS, KENNETH YOUNGMAN, LUSIJAH ROTT, AND MICHAEL BRISKIN

I. Introduction	209
II. Interaction of Blood Lymphocytes with Endothelium Involves Multiple Steps That Control the Specificity of Lymphocyte Recruitment	211

III. Molecules Involved in Lymphocyte Interactions with Intestinal Endothelium	213
IV. Subset Specificity and Mechanisms of Lymphocyte Targeting to Intestinal Tissues <i>in Vivo</i>	229
V. $\alpha 4\beta 7$ and the Segregation of Intestinal from Systemic Memory	237
VI. Clinical Significance and Therapeutic Opportunities	241
References	243

Dendritic Cells

DIANA BELL, JAMES W. YOUNG, AND JACQUES BANCHEREAU

I. Introduction	255
II. Features of Dendritic Cells	257
III. Ontogeny of Dendritic Cells	274
IV. Maturation of Dendritic Cells	279
V. Interactions of Dendritic Cells with T Cells	281
VI. Interactions of Dendritic Cells with B Lymphocytes	285
VII. Dendritic Cells in Clinical Disease States	291
VIII. Concluding Remarks	305
References	305

Integrins in the Immune System

YOJI SHIMIZU, DAVID M. ROSE, AND MARK H. GINSBERG

I. Introduction	325
II. Ligand-Binding Sites in Integrins	325
III. Integrin Ligands in the Immune System	330
IV. Integrin Signaling	335
V. Integrin Function and the Immune System	337
VI. Integrins in Lymphocyte Recirculation	344
VII. The Role of Integrins in Immune Responses and Inflammation: Two Case Studies	348
VIII. Regulation of Integrin Ligand Expression in Inflammation	351
References	353
