FOUNDATIONS IN CANCER RESEARCH

The Pastorian: A Legacy of Louis Pasteur 1

Harold Varmus

Cell Cycle Control in Fission Yeast and Mammals: Identification of New Regulatory Mechanisms

Hiroto Okayama, Akihisa Nagata, Shigeki Jinno, Hiroshi Murakami,
Koichi Tanaka, and Naomi Nakashima

- I. Introduction 17
- II. Life Cycle of Fission Yeast 18
- III. Cell Cycle Start Control of Fission Yeast 18
- IV. Cell Cycle Start Control of Mammals 31
- V. Mitotic Start Control of Fission Yeast 40
- VI. Mitotic Start Control of Mammals 50
- VII. Closing Remarks 54
- References 55

Cytogenetics and Molecular Genetics of Bone and Soft Tissue Tumors

Nils Mandahl

- I. Introduction 64
- II. Cytogenetic and Major Molecular Genetic Findings 65
- III. Aberrations Shared by Several Tumor Types 88
- IV. Diagnosis and Prognostication Based on Genetic Analysis 91
- References 93

Plasminogen Activation on Tumor Cell Surface and Its Involvement in Human Leukemia

Hannele Tapiovaara, Riitta Alitalo, and Antti Vaheri

- I. Introduction 101
- II. Components of Plasminogen Activation 102
- III. Activation of Plasminogen on Cell Surface 104
- IV. Regulators of Plasminogen Activation 107
- V. Internalization of uPA 110
- VI. Plasminogen Activators in Tumors 111
- VII. Plasminogen Activators in Cell Migration 114
- VIII. Plasminogen Activation and Leukemia 117
- IX. Future Aspects 122
- References 124

How Tumors Become Angiogenic

Noël Bouck, Veronica Stellmach, and Stephanie Hsu

- I. Introduction 135
- II. Tumor Angiogenesis 136
- III. Development of an Angiogenic Phenotype 139
- IV. Therapeutic Strategies Targeting Tumor Angiogenesis 160
- V. Conclusions 161
- References 162

Immunity to Human Papillomavirus-Associated Cervical Neoplasia

Peter L. Stern

- I. Introduction 175
- II. Human Papillomaviruses 176
- III. Immunological Recognition of HPV in Cervical Neoplasia 182
- IV. Evasion of Immune Surveillance 190
- V. Prospects for Immune Intervention 201
- VI. Conclusions 203
- References 204

Strategies Involved in Developing an Effective Vaccine to EBV-Associated Diseases

Denis J. Moss, Christopher Schmidt, Suzanne Elliott, Andreas Suhrbier, Scott Burrows, and Rajiv Khanna

- I. Introduction 213
- II. Host-Virus Relationships 214
- III. Humoral Response to EBV Infection 220
- IV. CTL Response to EBV Infection 220
- V. Developing a Vaccine for EBV 228
- VI. Vaccines and Immunotherapy for EBV-Associated Diseases 232
- References 238
