Contributors to Volume 76 ix

Fibronectin and Its Integrin Receptors in Cancer

Erkki Ruoslahti

- I. Introduction 1
- II. Reduced Adhesiveness Is Needed for Detachment and Migration 3
- III. Anchorage Dependence and Anoikis 5
- IV. Cell Migration and Invasion 10
- References 16

Myb and Oncogenesis

Brigitte Ganter and Joseph S. Lipsick

- I. Introduction 21
- II. The *Myb* Genes 22
- III. Structural and Functional Features of the Myb Proteins 36
- IV. Regulation of v-Myb and c-Myb 41
- V. Transcriptional Regulation by v-Myb and c-Myb 46
- VI. The Myb-Chromatin Connection 50
- References 52

c-Src, Receptor Tyrosine Kinases, and Human Cancer

Jacqueline S. Biscardi, David A. Tice, and Sarah J. Parsons

- I. Introduction 61
- II. Receptor Tyrosine Kinases and Human Cancers 63
- III. c-Src and c-Src Family Members in Human Cancers 78
- IV. Mechanisms of c-Src Action 89
- V. Potential Therapeutic Applications of c-Src/HER1 Interactions 102
- References 103

Epidemiology of Kaposi's Sarcoma-Associated Herpesvirus/Human Herpesvirus 8

Thomas F. Schulz

- I. Introduction 121
- II. KSHV Phylogeny and Molecular Epidemiology 122
- III. Geographic Distribution 124
- IV. KSHV Prevalence in Risk Groups for HIV-1 Transmission 137
- V. Transmission of KSHV 141
- VI. Association of KSHV with Disease 145
- VII. Conclusion 153
- References 154

Consensus on Synergism between Cigarette Smoke and Other Environmental Carcinogens in the Causation of Lung Cancer

Arnold E. Reif and Timothy Heeren

- I. Introduction 161
- II. Testing the Significance of a Finding of Synergism 165
- III. Carcinogenic Synergism and Public Health 172
- IV. Previous Findings on Synergism Involving Cigarette Smoke 176
- V. Multistep Carcinogenesis 177
- VI. Varying the Time Frame of Data Collection 180
- VII. Conclusion 182
- References 182

Carcinogenesis and Natural Selection: A New Perspective to the Genetics and Epigenetics of Colorectal Cancer

Jarle Breivik and Gustav Gaudernack

- I. Introduction 187
- II. Evolution and Cancer 188
- III. The Microsatellite Instability Pathway 192
- IV. The Chromosomal Instability Pathway 196
- V. MIN versus CIN 199
- VI. DNA Methylation and the Epigenetics of Cancer 200
- VII. Location-Related Carcinogenic Environments 206
- VIII. Conclusion and Perspectives 208
- References 209

Antitumor Immunity at Work in a Melanoma Patient

Pierre G. Coulie, Hideyuki Ikeda, Jean-François Baurain, and Rita Chiari

- I. Introduction 214

II. Melanoma Patient LB33 and Melanoma Cell Lines	216
III. Autologous CTLs against MEL.A Cells	218
IV. Identification of Antigens Recognized by CTLs on MEL.A Cells	223
V. The MEL.B Cells	227
VI. A New Class of Antitumor CTL	232
VII. Conclusions	238
References	239
