

Advances in VIRUS RESEARCH

Edited by

KARL MARAMOROSCH

Department of Entomology
Rutgers University
New Brunswick, New Jersey

FREDERICK A. MURPHY

School of Veterinary Medicine
University of California, Davis
Davis, California

AARON J. SHATKIN

Center for Advanced Biotechnology and Medicine
Piscataway, New Jersey

VOLUME 50

ACADEMIC PRESS

San Diego New York Boston
London Sydney Tokyo Toronto

CONTENTS

The Effects of Human Immunodeficiency Virus in the Central Nervous System

DENNIS L. KOLSON, EHUD LAVI, AND FRANCISCO GONZÁLEZ-SCARANO

| | |
|---|----|
| I. Introduction | 1 |
| II. Clinical Features and Pathological Findings | 2 |
| III. Role of Virus in HIV Dementia | 4 |
| IV. How HIV Causes Neurological Damage | 19 |
| V. Comparison with Other Retroviruses | 28 |
| VI. Summary | 30 |
| References | 32 |

Viruses in Marine Brown Algae

DIETER G. MÜLLER, MARKUS KAPP, AND ROLF KNIPPERS

| | |
|---|----|
| I. Introduction | 49 |
| II. Taxonomy and Biological Background | 50 |
| III. Early Observations of Virus Infections | 52 |
| IV. Isolation and Culture Techniques | 52 |
| V. Infection Symptoms | 54 |
| VI. Preparation of Virus Particles | 54 |
| VII. The Viral Genome | 55 |
| VIII. Infection Process | 58 |
| IX. Host Specificity | 61 |
| X. Ecological Issues | 61 |
| XI. Comparisons | 62 |
| XII. Outlook | 63 |
| References | 64 |

BK and JC Human Polyomaviruses and Simian Virus 40: Natural History of Infection in Humans, Experimental Oncogenicity, and Association with Human Tumors

GIUSEPPE BARBANTI-BRODANO, FERNANDA MARTINI, MONICA DE MATTEI,
LORENA LAZZARIN, AND MAURO TOGNON

| | |
|--|----|
| I. Introduction | 69 |
| II. General Characteristics of BK Virus and JC Virus | 70 |

| | |
|--|----|
| III. Epidemiology: Primary Infection, Latency, Reactivation, and Route of Transmission | 71 |
| IV. BK Virus and JC Virus Experimental Oncogenicity | 73 |
| V. BK Virus and JC Virus <i>in Vitro</i> Transformation | 76 |
| VI. Association of BK Virus and JC Virus with Human Tumors | 79 |
| VII. Simian Virus 40 Infection of Humans and Presence of Simian Virus 40 in Human Tumors | 82 |
| VIII. Conclusion | 85 |
| References | 87 |

The Replicative Complex of Paramyxoviruses: Structure and Function

REINHARD SEDLMEIER AND WOLFGANG J. NEUBERT

| | |
|---|-----|
| I. Introduction | 101 |
| II. Structure of Nucleocapsid | 103 |
| III. Genomic RNA | 105 |
| IV. Structural Proteins of Nucleocapsid and Their Functions | 107 |
| V. RNA Synthesis | 116 |
| VI. Establishing Recombinant Paramyxoviruses | 131 |
| VII. Conclusions | 132 |
| References | 133 |

Core Particles of Hepatitis B Virus as Carrier for Foreign Epitopes

RAINER ÜLRICH, MICHAEL NASSAL, HELGA MEISEL,
AND DETLEV H. KRÜGER

| | |
|---|-----|
| I. Introduction | 141 |
| II. Structure, Assembly, and Antigenic Properties of HBcAg | 147 |
| III. Insertion of Foreign Peptide Sequences | 151 |
| IV. Structure and Antigenicity of HBcAg-Derived Chimeric Particles | 155 |
| V. Immunogenicity of Chimeric HBcAg Particles | 159 |
| VI. Current State and Perspectives in the Development and Use of Chimeric HBcAG | 162 |
| VII. Summary | 164 |
| References | 165 |

The Molecular Biology of Mastreviruses

KENNETH E. PALMER AND EDWARD P. RYBICKI

| | |
|--|-----|
| I. Introduction | 183 |
| II. The Molecular Biology of Mastreviruses | 191 |
| References | 226 |

Bacteriophage HK97 Head Assembly: A Protein Ballet

ROGER W. HENDRIX AND ROBERT L. DUDA

| | |
|--|-----|
| I. Introduction | 236 |
| II. Initial Steps | 243 |
| III. Shell Assembly | 246 |
| IV. Proteolysis: The Remodeling of Prohead I into Prohead II | 253 |
| V. Scaffolds, Proteolysis, and the Initiation of Head Assembly | 258 |
| VI. Expansion of the HK97 Capsid | 263 |
| VII. Cross-Linking of Head Proteins in HK97 | 266 |
| VIII. Questions about Phage Head Expansion | 279 |
| IX. Conclusions | 281 |
| References | 283 |

Mechanisms Involved in Natural and Experimental Neuropathogenicity of Influenza Viruses: Evidence and SpeculationWALTER SCHLESINGER, PAUL J. HUSAK, GARY L. BRADSHAW, AND
PANAYOT P. PANAYOTOV

| | |
|---|-----|
| I. Clinical, Epidemiological, and Etiological Evidence of Neuropathology Associated with Natural Influenza Virus Infections: Historical Background | 290 |
| II. Experimental Selection of Neurovirulent Variants of Human Influenza Viruses: Historical Background | 297 |
| III. Experimental Animal Models for Neuropathogenic Potential of Human Influenza Viruses Not Selected for the Neurovirulent Phenotype, Historical Background | 302 |
| IV. Studies in Nerve-Cell Cultures | 318 |
| V. Neuropathological Potential of Influenza Viruses Not Selected for Experimental Neurovirulence | 330 |
| VI. Strain-Specific Differences in Splicing of mRNAs 7 and 8 in Mouse Brains: <i>Vivo</i> : Unique Aspects about the Neurovirulent Potential of the WS Strain | 332 |
| VII. Effects of Nerve Cell Differentiation in an Established Multipotential Mouse Hypothalamic Cell Line (V1) | 339 |
| VIII. Speculative Interpretations | 340 |
| References | 367 |

The Structure and Function of Nodavirus Particles: A Paradigm for Understanding Chemical Biology

ANETTE SCHNEEMANN, VIJAY REDDY, AND JOHN E. JOHNSON

| | |
|--|-----|
| I. Introduction | 382 |
| II. Description and Comparison of Nodavirus-Associated Molecules | 390 |
| III. Nodavirus Life Cycle | 395 |
| IV. Nodavirus Particle | 399 |

| | |
|--|-----|
| V. Particle Maturation | 420 |
| VI. Protein-RNA Interactions and Quasi-equivalence | 428 |
| VII. Viral Entry and RNA Delivery | 431 |
| VIII. Subunit-Related Functions Derived from Biochemical and Molecular Biological Studies | 433 |
| IX. Conclusions and Future Directions | 441 |
| References | 442 |
| | |
| INDEX | 447 |
