

# Advances in **VIRUS RESEARCH**

Edited by

**KARL MARAMOROSCH**

Department of Entomology  
Rutgers University  
New Brunswick, New Jersey

**FREDERICK A. MURPHY**

School of Veterinary Medicine  
University of California, Davis  
Davis, California

**AARON J. SHATKIN**

Center for Advanced Biotechnology and Medicine  
Piscataway, New Jersey

**VOLUME 51**

**ACADEMIC PRESS**

San Diego New York Boston  
London Sydney Tokyo Toronto

# CONTENTS

## Historical Vignette: A Life with Poxviruses and Publishers

FRANK FENNER

I. Introduction . . . . .	1
II. Early Life: 1914–39 . . . . .	2
III. The Australian Army Medical Corps: 1940–46 . . . . .	3
IV. The Walter and Eliza Hall Institute: 1946–48 . . . . .	5
V. The Rockefeller Institute for Medical Research: 1948–49 . . . . .	7
VI. Studies on Mycobacteria . . . . .	8
VII. Appointment to the Australian National University . . . . .	10
VIII. Development of the Department of Microbiology . . . . .	10
IX. Myxomatosis . . . . .	11
X. Genetics of Vaccinia Virus . . . . .	15
XI. The International Committee on Taxonomy of Viruses: 1966–76 . . . . .	17
XII. First Encounters with Publishers . . . . .	18
XIII. Associations with Scientific Societies . . . . .	19
XIV. Director of the John Curtin School of Medical Research: 1967–73 . . . . .	20
XV. Further Involvement in International Science . . . . .	21
XVI. Director of the Centre for Resource and Environmental Studies: 1973–79 . . . . .	22
XVII. The Certification of Smallpox Eradication . . . . .	23
XVIII. Visiting Fellow, John Curtin School of Medical Research: 1980 and Onwards . . . . .	23
XIX. World Travel, As Experienced by Australian Scientists . . . . .	27
XX. Summary . . . . .	28
References . . . . .	29

## Enteroviruses and Myocarditis: Viral Pathogenesis Through Replication, Cytokine Induction, and Immunopathogenicity

S. A. HUBER, C. J. GAUNTT, AND P. SAKKINEN

I. Clinical Myocarditis and Dilated Cardiomyopathy . . . . .	35
II. Enteroviruses in Myocarditis . . . . .	37
III. Viral Pathology . . . . .	39
IV. Virulence . . . . .	39
V. Host Defense Mechanisms . . . . .	40
VI. Cytokines in Myocarditis . . . . .	54
VII. Autoimmunity . . . . .	55
VIII. Why Myocarditis Causes Dilated Cardiomyopathy . . . . .	59
IX. Genetic Susceptibility . . . . .	60
X. Conclusions . . . . .	63
References . . . . .	63

**Alphaherpesvirus Latency: Its Role in Disease and Survival of  
the Virus in Nature**

CLINTON JONES

I.	Introduction. . . . .	82
II.	Alphaherpesviruses and Disease. . . . .	82
III.	Viral Gene Expression during Productive Infection. . . . .	85
IV.	Cell Cycle and Its Role during Herpesvirus Infection . . . . .	87
V.	Steps of a Latent Infection. . . . .	90
VI.	Analysis of the Gene Encoding LAT and the BHV-1 LR Gene . . . . .	96
VII.	Analysis of LAT and LR Genes . . . . .	102
VIII.	Role of the Immune System Following Infection . . . . .	109
IX.	Future Directions . . . . .	111
	References . . . . .	112

**Tailed Bacteriophages: The Order *Caudovirales***

HANS-W. ACKERMANN

I.	Introduction. . . . .	135
II.	The World of Tailed Phages . . . . .	137
III.	Morphology . . . . .	142
IV.	Physicochemical Properties of Particles . . . . .	154
V.	The Genome . . . . .	156
VI.	Lifestyles . . . . .	164
VII.	Amino Acid Sequence Alignments . . . . .	179
VIII.	Summary and Conclusions. . . . .	187
	References . . . . .	190

**The Immunology of Rotavirus Infection in the Mouse**

JASON ROSÉ, MANUEL FRANCO, AND HARRY GREENBERG

I.	Introduction. . . . .	203
II.	History of the Murine Rotavirus Model . . . . .	204
III.	The Humoral Immune Response . . . . .	209
IV.	The Cell-Mediated Immune Response. . . . .	213
V.	Effector Mechanisms of Immunity . . . . .	215
VI.	Protection Studies. . . . .	221
VII.	Strategies for Vaccination in the Mouse Model . . . . .	227
	References . . . . .	229

**Infection and Spread of Alpha herpesviruses in the Nervous System****L. W. ENQUIST, PAUL J. HUSAK, BRUCE W. BANFIELD,  
AND GREG A. SMITH**

I. Introduction . . . . .	238
II. Cell Biology of Viral Infection and Egress: Implications for Directional Spread in the Nervous System. . . . .	240
III. Molecular Biology of Herpes Simplex Virus Neurovirulence. . . . .	270
IV. Exploiting HSV and PRV for Tracing Neural Circuitry in Living Animals .	283
V. Summary and Unfinished Business . . . . .	310
References . . . . .	312
INDEX . . . . .	349
