

R. Greger U. Windhorst (Eds.)

Comprehensive Human Physiology

From Cellular Mechanisms
to Integration

Volume 1

With 700 Figures and 84 Tables

Springer

Contents

Volume 1

Physiology Past and Future. R. GREGER and U. WINDHORST	1
I Basic Principles and Their Co-ordination	
A Homeostasis and Regulation	
1 Regulatory Principles in Physiology U. WINDHORST	21
2 Physiological Synergetics: A Holistic Concept Concerning Phase Jumps in the Behavior of Driven Nonlinear Systems H. SCHMID-SCHÖNBEIN	43
3 Concepts of Control and Information: A Language for Physiology W.S. YAMAMOTO	69
B Cellular Mechanisms	
4 The Cell and Its Membranes R. GREGER	79
5 Cellular Transduction Processes R. GREGER	95
6 Cell Communication by Autacoids and Paracrine Hormones R. GREGER	115
7 Cell-to-Cell Communication by Gap Junctions R. GREGER	139
8 Cellular Membrane Transport Mechanisms R. GREGER	149
9 Connective Tissue: More Than Just a Matrix for Cells G. SIEGEL	173
10 Nonmuscle Motility and the Actin-Based Cytoskeleton B.M. JOCKUSCH and H. HINSEN	225
11 Membrane Voltage and Preservation of the Ionic Distribution Across the Cell Membrane R. GREGER	245

C Nerve and Synaptic Function

12 Ion Channels in Excitable Membranes J.P. RUPPERSBERG	267
13 Excitation and Nerve Conduction W.F.H.M. MOMMAERTS, D. JUNGE, and M.B. JACKSON	283
14 Sensory Transduction and Neural Coding D. JUNGE, W.F.H.M. MOMMAERTS, and U. WINDHORST	295
15 Innervation of Muscle and Neuromuscular Transmission J.P. RUPPERSBERG and S. HERLITZE	307
16 Synaptic Transmission M. FROTSCHER	321

D Autonomic and Hormonal Control

17 The Autonomic Nervous System: Peripheral and Central Integrative Aspects K.A. SHARKEY and Q.J. PITTMAN	335
18 The Functions of the Limbic System S.E. FOX	355
19 The Role of the Hypothalamus in Neuroendocrinology K. KOIZUMI	379
20 Metabolism of Cortical Steroid Hormones and Their General Mode of Action K. HIERHOLZER and H. BÜHLER	403
21 Growth Factors R.A. BRADSHAW	431
22 The Thyroid Gland. Thyroid Hormones, Their Origin and Their Mechanism of Action R. FINKE, H. SCHLEUSENER, and K. HIERHOLZER	451
23 Hormones Modulate Environmental Control of a Changing Brain B.S. MCEWEN	473

II The Nervous System

E General Properties of the Central Nervous System

24 Synaptic Circuits and Physiological Operations in the Central Nervous System G.M. SHEPHERD	497
25 The Generation of Electric and Magnetic Signals of the Brain by Local Networks F.H. LOPES DA SILVA	509
26 Neuron-Glia Interactions in Homeostasis and Degeneration H. KETTENMANN, A. FAISSNER, and J. TROTTER	533

27	Blood-Brain Barrier and the Production of Cerebrospinal Fluid W. KUSCHINSKY	545
28	Circulation in the Central Nervous System L. SOKOLOFF	561
29	Cerebral Metabolism and Visualization of Cerebral Activity L. SOKOLOFF	579
30	Establishment of Neural Cell Populations and Interneuronal Connections A. FAISSNER, H. KETTENMANN, and J. TROTTER	603
F Sensory Systems and Functions		
31	Central Projections of Cutaneous and Enteroceptive Senses U. WINDHORST	623
32	Tactile Senses U. WINDHORST	647
33	Temperature Perception and Pain W.D. WILLS, JR	677
34	The Vestibular System H.-P. ZENNER and A.W. GUMMER	697
35	Hearing H.-P. ZENNER	711
36	Central Processing of Auditory Information A.W. GUMMER and H.-P. ZENNER	729
37	Introduction to Vision W.F.H.M. MOMMAERTS	757
38	Retinal Processing of Vision J.E. DOWLING	773
39	Central Processing of Vision U. WINDHORST	789
40	Eye Movements and the Mechanisms of Accommodation and the Pupil R.H.S. CARPENTER	829
41	Auditory-Visual Interactions in the Superior Colliculus A.W. GUMMER, P. PLINKERT, and H.-P. ZENNER	839
42	Olfaction and Taste D. SCHILD	847
43	From Neuron to Gestalt: Mechanisms of Visual Perception L. SPILLMANN and W.H. EHRENSTEIN	861

G Motor Functions and Their Control

44 Smooth Muscle J.C. RÜEGG	895
45 Physiology of Skeletal Muscle U. WINDHORST and W.F.H.M. MOMMAERTS	911
46 Muscle Contraction: Molecular and Cellular Physiology J.C. RÜEGG	935
47 Genetic Control of Muscle Function and Molecular Basis of Muscle Diseases H. JOCKUSCH	959
48 The Peripheral Motor Apparatus and Its Nervous System: General Problems to Be Solved and General Problem Solvers U. WINDHORST	969
49 Spinal Cord and Brainstem: Motor Output, Sensors and Basic Circuits U. WINDHORST	987
50 Spinal Cord and Brainstem: Pattern Generators and Reflexes U. WINDHORST	1007
51 Cerebral Cortex, Basal Ganglia, and Cerebellum: Parallel Circuits U. WINDHORST	1033
52 Higher Psychomotor Functions U. WINDHORST	1059
Appendix. Psychomotor Aspects of the Brain-Mind Problem H.-D. HENATSCH	1091
53 The Human Voice J. SUNDBERG	1095

H Integrated Functions of the Central Nervous System

54 Specific Networks of the Cerebral Cortex: Functional Organization and Plasticity U. WINDHORST	1105
55 Bilateral Organization of the Brain U. WINDHORST	1137
56 Memory and Learning R.F. THOMPSON and C.G. LOGAN	1161
57 Sleep J.M. SIEGEL and R.M. HARPER	1183
58 Biological Rhythms and the Pineal Gland J.C. FLOREZ and J.S. TAKAHASHI	1199
